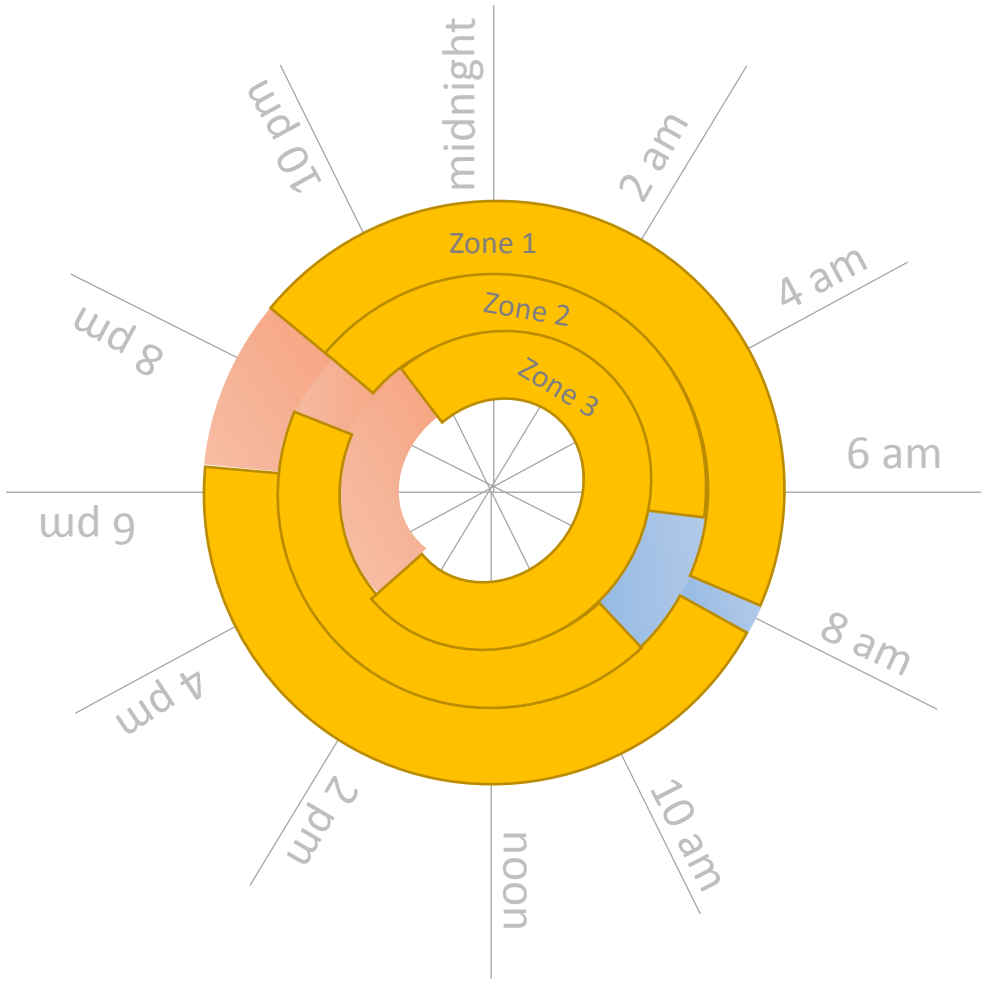
GOAL



Summer – Typical Day
Spring – Typical Day
Autumn – Typical Day
Winter – Typical Day
Summer – Design Day
Winter – Design Day

Too Warm
Comfortable
Too Cold

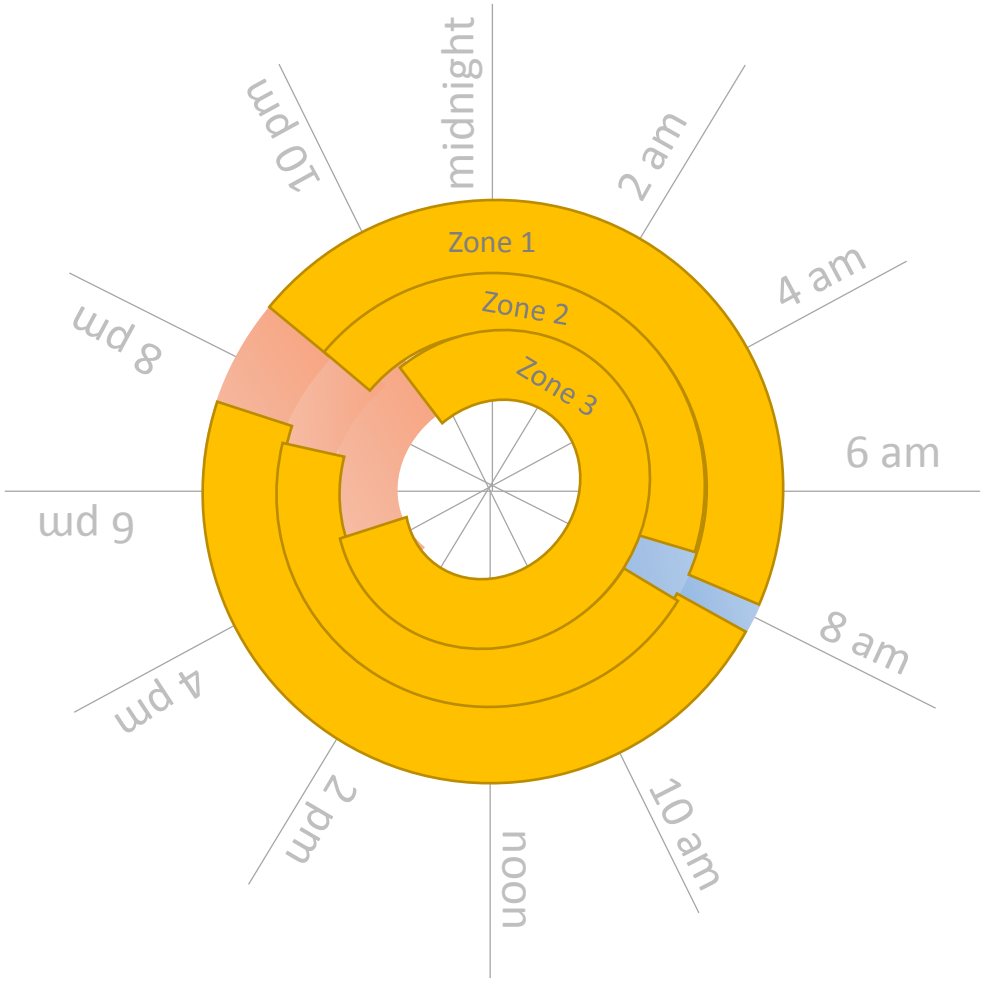
Option 2

Goals:

- Dynamic with number of zones
- Largest zone = largest ring
- Stretch goal: user chooses preferred comfort conditions from a short list

Questions:

- Should it just be yes/no, or include pale colors for why it fails the criteria?
- What other information would be useful to include?



Option 1
